Hypothesis

An hypothesis is the opening statement that outlines your proposed argument. This statement will be proved in your discussion.

Hypothesis: _____

Supporting arguments are taken from the points you outlined in your hypothesis. Each point is developed logically and sequentially to prove your hypothesis.

Supporting arguments. (in note form)

Point 1:

Point 2:

Point 3:

Point 4:

The Conclusion **MUST RESTATE** the hypothesis. i.e - The Supporting Arguments given prove the hypothesis, which is then restated.

Conclusion:

Defining: Formulate a basic hypothesis
