

HOW DO I MAKE A REFERENCE LIST WHEN I AM IN YEAR 6?

As soon as you use a source of information make a note of the details required for your reference list.

You will need the author, the date of publication and the title of the resource. If the item has no author then the title is written first, the date is then written after the title.

If you use more than one resource then make a list of them.

Your Reference List should look like this.

REFERENCE LIST

Dog. (2013). In World Book Kids.
